

AUCTION

Live Auction for Two Mechanical Clam Harvester Machines

Machine #1

Used very little and in great condition. The Honda motor-6 horse power engine is a proven producer at less the cost of a replacement. It will dig the equivalent of six human diggers.

- Lower your digging costs to \$0.06 per pound!
- Very economical to operate.

Starting bid: \$10,000

Available for previewing in Courtenay by appointment only, call 250.890.7561 to make arrangements.

Machine #2

Brand new! First phase prototype machine that still needs some modifications to hydraulic and harvesting systems.

- 20 horsepower water cooled diesel engine
- Stainless steel/aluminum frame
- Rubber tracks
- Weighs apprx. 2,800 lbs

Starting bid: \$30,000

Available for pre-viewing in Bowser by appointment only.

Call 250.890.7561 to make a viewing appointment.
